

LET'S MAKE BRAINS MATTER!

Brain Week is a time for the young and young at heart, to start a conversation about brain cancer and to celebrate the brain with fun, awareness-raising and brain-activating activities.

By taking part in Brain Week you can raise much-needed funds and change the odds of paediatric brain cancer, Australia's #1 cancer killer of young people.

Spend a lunch break, a day or devote a week. You can participate in Brain Week anyway you like!

Just some of the ways your school or workplace can get involved:

- Organise an event that nourishes, activates or elates the brain – think delicious food, brainy competitions or relaxing yoga – the choice is yours!
- Sell great Brain Week merchandise

For more information or to register your school
