

BRAIN

MAY 1-5

2017

WEEK

LET'S MAKE BRAINS MATTER

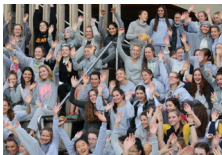

It's time for the young and young at heart, to start a conversation about brain cancer and to champion the brain with fun awareness - raising, and brain stimulating, activities.

Big or small - your school can make an impact for pediatric brain cancer, this country's No.1 cancer killer of young people. Spend a lunch break, a day or devote a week. There are many ways to participate in Brain Week 2017.

For more information and to register your school

#BRAINSMATTER

Go Grey in May

Wear grey on Friday 5th of May to show your support. Wear just a touch or get totally cosy and casual in grey.
