

A SHOW OF STRENGTH FOR BRAIN CANCER

Connor's Erg - 100 km Challenge

Hosted by the Robert Connor Dawes (RCD) Foundation, Connor's Erg began as a 100km Erg Challenge between Wisconsin and Stanford and is now expanding to the top rowing teams at Universities across the United States.

The team who pulls the fastest 100 km wins bragging rights and the Connor Cup. The remaining teams go home with a warm fuzzy feeling that they supported pediatric brain cancer research. The challenge is a unique, virtual, team building event helping show the world that the brain is where the heart lives.

The RCD Foundation operates in the US and Australia, where brain cancer kills more children than any other disease. The Foundation works tirelessly to support brain matters projects in the areas of research, care and development – to fund the science to end pediatric brain cancer and support patients in the meantime.

SPONSORSHIP LEVELS INCLUDE:
